# Landfill Advisory Committee Final Report

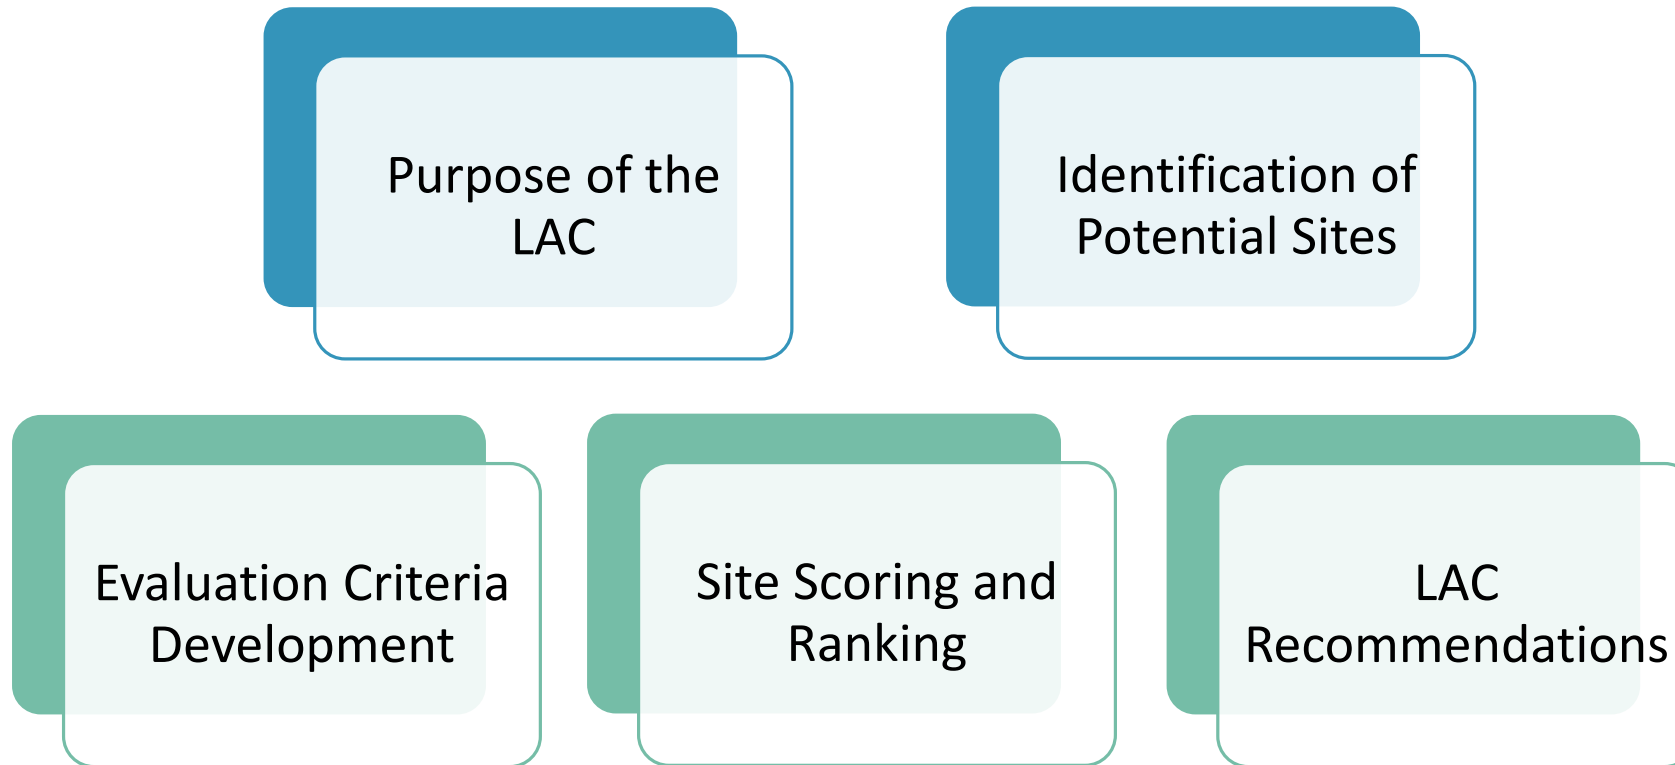

---

## CONTENTS

# Intent of the Report

---

Document the LAC process including:

# O'ahu Landfill Siting Study Final Report

- 1 Executive Summary
- 2 Introduction
- 3 Landfill Advisory Committee
- 4 Identification of Potential Landfill Sites
- 5 Site Scoring Methodology
- 6 Results of Site Scoring and Ranking,  
and LAC Recommendations

# O'ahu Landfill Siting Study Final Report

## APPENDICES

---

Appendix A: Individual LAC Member Statements

---

Appendix B: LAC Meeting Agendas, Minutes, Written Public Comment and Presentation Materials

---

Appendix C: Public Outreach Documents

---

Appendix D: Example Scoring Forms

---

Appendix E: Evaluation Criteria Technical Supporting Documents

---

# Edits to the Report

## (Minor, in June 3 Version)

---

- Punctuation added where appropriate
- “Cont.” added to Table 4.1 due to splitting between pages

Restriction	Definition
Fault Areas	Must not be located within 200 feet of a fault that has had displacement in Holocene time or must demonstrate that an alternative setback distance will maintain the landfill's structural integrity.
Seismic Impact Zones	Must not be located in seismic impact zones or must demonstrate that all liners, leachate collection systems,

# Edits to the Report

## (Executive Summary 1.4.3)

---

### 1.4.3 LAC Recommendations

Evaluating and scoring potential landfill sites is an extremely challenging undertaking, especially in consideration of the fact that all proposed sites are in or near culturally, ecologically and/or environmentally sensitive areas, including the Board of Water Supply No Pass Zone. All LAC members expressed concerns related to the location of the proposed sites in the No Pass Zone and, consequently, the potential implications for O'ahu's drinking water resources. The LAC approved a motion not recommending any of the final landfill sites due to their location within the No Pass Zone and made additional recommendations for the City as follows:

- Explore amending Act 73 to allow more suitable sites outside of the No Pass Zone.
- Request more time from the LUC to explore amending Act 73, and thoroughly evaluate federal owned and leased land, and eminent domain options for parcels outside the No Pass Zone.

# Edits to the Report

## (Landfill Advisory Committee 3.2)

---

### 3.2 Appointment of the LAC

After ~~careful consideration~~ starting with a list of over 30 candidates and careful consideration of their backgrounds, availability, and potential willingness to serve, ENV prepared a list of 11 individuals approved by the Mayor to serve on the LAC. The individuals represented a wide range of professional backgrounds and community involvement, including government, University of Hawai'i affiliation, neighborhood boards, and industrial, construction, engineering, cultural, environmental, and other businesses. The intent was to select individuals within the community who could offer
